

2nd of May ASOER Program

During the whole day of the 2nd of May, AsOER will carry out many activities on field open to the public with birds' ringing, monitoring of birds of prey in migration and observation of the avifauna in wet areas between Mesola's Wood and Volano.

At the end there will be a social dinner and two presentations according to the following program:

19,45 – social dinner at the Canneviè Oasis Restaurant, with the following menu: mixed sliced in oil, asparagus risotto or penne with cream, ham and peas, escalope with mushrooms, roast potatoes, home made dessert, water, wine, coffee (all inclusive cost Euro 25.00).

21,00 – at the Visit Centre of Canneviè Oasis, presentation of ORNHITO.IT, a common platform to collect and share ornithological observations and data (edited by Roberto Lardelli); it is a revolutionary system in ornithology that, in addition to the fact that it allows detectors to realize their archives with a cartographic representation of their data (photos and audio recordings included), will offer in real time maps of distribution of nesters, winterers and migrating on the basis of the positive experience carried out with ORNITHO.CH in Swiss and now starting in France, Spain and Austria; AsOER will support this project economically as well as with the work of its members.

Later: "Nocturnal birds of prey between myth and nature", a presentation with images proposed by Menotti Passarella. For information and participation please contact Menotti Passarella, menotti.passarella@email.it. 348.3963900.
